Before the sunrise breaks the sky
I'm facing my keyboard now
The monitor's glow lights up
My battlefield where I fight
Writing a thousand lines of code
Fighting bugs day after day
This is how I choose to live
As a digital samurai

Even when errors appear
I will never give up here
Through debugging repeatedly
I grow stronger every time
Midnight coffee in my hand
Building algorithms grand
This is modern martial art
My program is my samurai sword

Languages may differ but
Our mission stays the same
Python, Java, JavaScript
All of them are my weapons
Beyond the cloud there waits
A brand new world for us
With open source spirit strong
Let's create the future together

My fingertips become my blade
Cutting through to future days
Breaking down the system walls
There are no limits here at all
Speed it up now!
Level up now!
Break on through!
To the new age!

Below it, a snow-capped mountain, resembling Mount Fuji, is depicted in white and light blue. In the foreground, a group of samurai warriors stands in silhouette. They are dressed in traditional armor, and some carry long staves or spears. The overall style is expressive and painterly, with visible brushstrokes and a rich, textured color palette.
